(May 2014)

Application of the Tank Testing Requirements of UR S14

Rule Section

CSR-OT 11/5

Testing Procedures

Description

The purpose of this common procedure is to provide a unified understanding of the applicability of the UR S14, Rev.4.

Common Procedure

The requirements of UR S14 Rev.4 as incorporated by the Society as well as any additional requirements of the Society are applicable to all ships built under the CSR-OT on or after the Society's date of adoption, in lieu of the testing requirements within the CSR-OT, which are superseded hereby.

Background

This common procedure has been prepared to provide a unified understanding of CSR for Oil Tankers.
