

No.8 Provision for the carriage of heated oils and
(1981) oils with a flash point above 60°C up to 100°C
on dry cargo ships

Deleted Nov 2011.

(Machinery Panel proposed that the Recommendation No.8 is obsolete as the carriage of oil as cargo is to comply with the compulsory regulations for an Oil Tanker in SOLAS and MARPOL. GPG approved the proposal to delete the recommendation (0140bIGk)).
