

# **MPC 38 Resolution 2 of the 1997 MARPOL Conference Technical Code on Control of (July 2004) Emission of Nitrogen Oxides from Marine Diesel Engines**

## **Chapter 2.3.5**

Chapter 2.3 Procedures for certification of an engine

Chapter 2.3.5 reads as follows:

To demonstrate compliance by the direct measurement method, sufficient data shall be collected to calculate the weighted average NO<sub>x</sub> emissions in accordance with this Code.

Interpretation:

For application of this section it shall be interpreted that sufficient data shall be collected by the direct measurement method to enable the weighted average NO<sub>x</sub> emissions to be determined in accordance with MEPC Resolution 103(49) 'Guidelines for On-board NO<sub>x</sub> Verification Procedure – Direct Measurement and Monitoring Method'.

---

Note:

This UI is to be uniformly implemented by IACS Societies from 19 May 2005.
