IBC Code Chapter 11

(Regulation 11.1)

Regulation

Paragraphs 11.1.1.3 and 4 of IBC Code Chapter 11 (as amended by Res.MSC.219(82) and Res.MEPC.166(56)) read:

“11.1.1 The requirements for tankers in SOLAS chapter II-2 shall apply to ships covered by the Code, irrespective of tonnage, including ships of less than 500 tons gross tonnage, except that:

- .3 regulations 10.2, 10.4, and 10.5 shall apply as they would apply to cargo ships of 2,000 tons gross tonnage and over;*
- .4 regulation 10.5.6 shall apply to ships of 2,000 gross tonnage and over;*

Interpretation

1. SOLAS Regulations II-2/10.2 and 10.4 apply to cargo ships of 500 gross tonnage and over under SOLAS and to chemical carriers, regardless of size, under the IBC Code.
2. SOLAS II-2/10.5, except for sub-paragraph 10.5.6, applies to chemical tankers, regardless of size, constructed on/after 1 July 1986.
3. SOLAS II-2/10.5.6 applies only to chemical tankers constructed on/after 1 July 2002 and of 2,000 gt and above.

Note:

This Unified Interpretation is to be uniformly implemented by IACS Members and Associates from 1 January 2009.
